

To the AGC of America Family:

As I assume my new role as President of the AGC Foundation, I would like to thank Jack Kelley for his past two years of outstanding leadership for the Foundation. Jack's emphasis on growing the

development, helped make 2013 another exciting and productive year for us. Included among our accomplishments are:

- **Completing two more faculty internships in 2013 and approving an additional four for the summer of 2014.** Justin Reginato, CSU Sacramento, worked with Swinerton, Inc. and Dr. Hisham Said, Santa Clara University, with Blach Construction in 2013, with rave reviews from their contractor sponsors. In 2014 we look forward to internships involving these faculty members and AGC contractors:
  - Amr Kandil, Purdue University, Bowen Engineering
  - Tarek Mahfouz, Ball State University, Barton Malow
